## Commentary

Real GDP grew 0,5% q/q (seasonally adjusted, not annualised) in Q1 2026, up from 0,4% in the prior quarter. Output was 1,9% higher than a year earlier (unadjusted). Finance & business services (0,2 pp) and Agriculture (0,1 pp) contributed most to growth. Manufacturing subtracted 0,1 pp. Note: Stats SA has announced a rebasing of the national accounts to a 2022 base year, pending later in 2026.

| Component                   | Contribution pp |
|-----------------------------|-----------------|
| Finance & business services | 0,23            |
| Agriculture                 | 0,11            |
| Trade & accommodation       | 0,08            |
| Transport & communication   | 0,05            |
| Taxes less subsidies        | 0,05            |
| Personal services           | 0,04            |
| Mining                      | 0,03            |
| General government          | 0,03            |
| Electricity, gas & water    | 0,01            |
| Construction                | 0,01            |
| Manufacturing               | -0,09           |
